EXPERIENCE

Social Media Designer

Various 2024 - Present

- Designed over 50 visual assets (flyers, videos, and social media content) for bars, travel agencies, and personal care brands, strengthening their visual identity.
- Developed content strategies and graphic pieces aligned with each brand's identity, increasing their digital presence and engagement on social media.
- Created brand assets and visual campaigns for local businesses, ensuring aesthetic consistency and professionalism across all communication channels.

Web Designer Developer

Wedding Invitations 2024 - Present

- Redesigned and developed interactive invitations using HTML, CSS, JavaScript, and Photoshop, delivering the project within a record time of two weeks.
- Implemented custom templates to optimize future workflows, reducing development time while maintaining visual quality standards.
- Created elegant and functional digital experiences for modern couples, integrating responsive design and dynamic interactions.

Developer

Its Time 2024

- Developed a Chrome extension with JavaScript, JSON, HTML, and CSS that displayed real-time countdowns to personalized events.
- Optimized the extension's performance to ensure a smooth, interruption-free browser experience.
- Improved users' time management through visual alerts dynamically updated according to their preferences.

Ui Designer

Read Mode 2024

- Redesigned the logo and user interface in Figma and Illustrator, implementing customizable color filters that improved readability and visual comfort.
- Directed usability research with 10 users to validate the new color palette and app navigation structure.
- Increased the app's visibility on Play Store after the redesign, driving +4,000 downloads and improving the rating from 3.5 to 4.8 stars.

Video Editor

Remote 2020 - 2023

- Produced and edited two weekly videos, using YouTube Studio to analyze metrics and optimize content strategy.
- Managed publication schedules and engagement strategies, contributing to a 300% increase in subscribers and doubling channel revenue.
- Created thumbnails using Canva.

EDUCATION

Bachelor of Science in Biotechnology

Universidad Autonoma de Aguascalientes

SUMMARY

Self-taught designer with 2+ years of experience creating digital experiences. I combined creativity and technology to develop functional and visually impactful web solutions. My approach focused on translating user needs into intuitive interfaces that balanced aesthetics and usability.

KEY ACHIEVEMENTS

+4,000 Downloads and 4.8-Star Rating, AT READ MODE (APP)

I designed the complete user interface redesign in Figma and Illustrator, implementing customizable color filters that improved readability and visual experience. I directed usability research with 10 users to validate the new color palette, successfully increasing the app's visibility on Play Store, which drove +4,000 downloads and improved the rating from 3.5 to 4.8 stars.

+300% Subscriber Growth, AT YOUTUBE CHANNEL

I developed a content and engagement strategy, producing videos consistently. By analyzing metrics in YouTube Studio, I optimized channel performance, doubling revenue.
